

LEZIONE 10

LA COSA

Tutto ciò che è, è **prodotto**:
mediante processi manuali [artigianato] e meccanici [industria], o
attraverso rappresentazioni simboliche e linguistiche
[comunicazione e arte].

Tutto ciò che è prodotto, è, nel sistema capitalistico, trasformato in
merce.

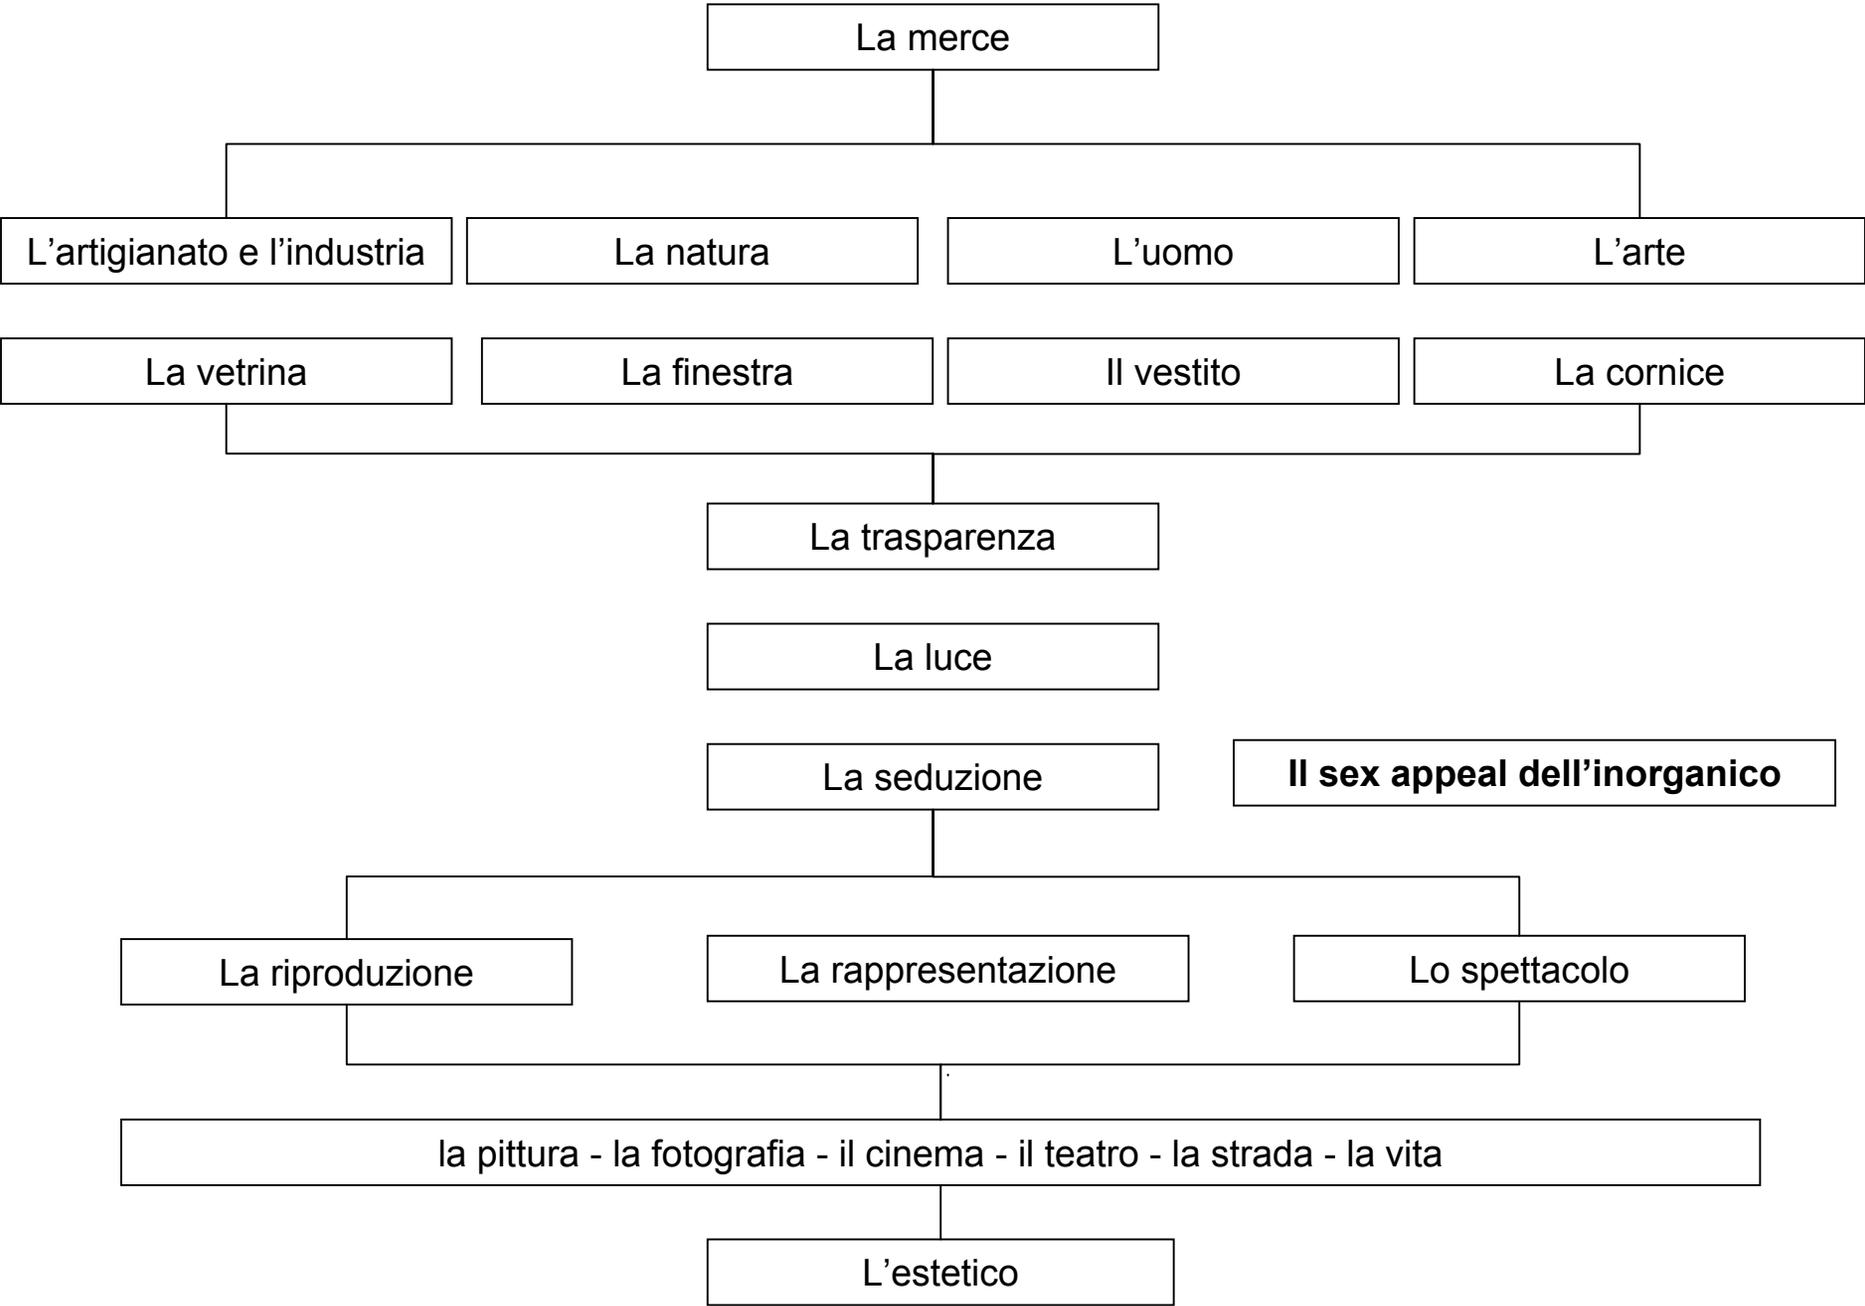

La merce per diffondersi **si espone!**

Anche l'**arte**, quindi, è assimilabile ad una produzione
e l'opera ad un prodotto e, dunque, ad una merce.

Non può esistere un'opera che possa essere definita artistica
senza che essa sia passata attraverso un processo di
esposizione.

L'esposizione è **universale!**

La **creazione** sfugge a questa *consecutio*.
